

# INTERNATIONAL LAW, SEEKING JUSTICE, AND THE GREAT MARCH OF RETURN IN GAZA

## Come to this discussion of the Palestinian Right of Return

During Israel's creation, over 750,000 Palestinians were expelled or fled temporarily to save themselves from the violence. Palestinian refugees and their descendants around the world continue to be denied their right of return as stipulated in a 1948 UN resolution. Why won't Israel let them return to their homes? What can be done to achieve peace with justice?
